

Product name: Skadoosh

Team name: The Goon Squad 2

Team members: Jasper Jeng, Aaron Chan, Prabhmeet Gill, Zachary Harris, Trevor Jordy

Release name: Michigan

Release date: June 6, 2018

Revision number: 1

Revision date: April 11, 2018

High level goals:

- 1) Have basic layout made for each page (landing page, login, etc.)
- 2) Be able to sign up and login with sessions
- 3) Have search wrapper on top of the school's data work properly
- 4) Be able to modify schedule, major requirements, GE requirements, and save to the database
- 5) Be able to write anonymous or public reviews for a class

User stories for release:

Sprint 1 - High level goal 1

1. As a developer, I want the local testing and build for Heroku set up (8 story points)
2. As a user, I layout to have a modern, stylistic theme (21 story points)
3. As a user, I want to navigate through each part of the web application (8 story points)

Sprint 2 - High level goal 2

1. As a user, I want to log in to my account (8 story points)
2. As a user, I want to be able to create an account with my ucsc email (5 story points)
3. As a user, I want my session to persist so that I do not have to log in everytime I visit the site. (5 story points)

Sprint 3 - High level goal 3

1. As a developer, I want the data from [pisa.ucsc.edu/class\\_search](http://pisa.ucsc.edu/class_search). (5 story points)
2. As a user, I want query for classes using the class data from the server (8 story points)
3. As a user, I want better filter options for classes such as which class has the best review, easiest, hardest, and more (5 story points)
4. As a user, I want to see the reviews for each class I searched (3 story points)

Sprint 4 - High level goal 4/5

1. As a user, I want there to be an interactable chart for my major to record my progress (13 story points)
2. As a user, I want there to be an interactable chart for my GE requirements to record my progress (13 story points)
3. As a user, I want to leave reviews for the classes I have taken (5 story points)

Product backlog:

Group finder

Class chat discussion

School progress overall

Class location map for distance measurement

Each class has its own page, with separate tabs for each professor.
