

Login and Signup Unit Test

Skadoosh by The Goon Squad 2

Tests performed by Prabhmeet Gill

Test 1: Create account

- Attempt to create an account at localhost:3000/signup
- User credentials
 - Email: foobar@ucsc.edu
 - Password: Password123
 - Confirm Password: Password123
- Press Signup

Result 1

1. If user account created, user should be directed to the login page
2. If user account creation failed, user is not directed anywhere and stays at current location

Test 2: Login

- Attempt to login to previously made account at localhost:3000/login
- User credentials
 - Email: foobar@ucsc.edu
 - Password: Password123
- Press Login

Result 2

1. If valid credentials, user should be directed to the the main application at localhost:3000/main
2. If invalid credentials, user is not directed anywhere and stays at current location
